DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-8, drawn to a solar battery system.

Group II, claim(s) 9-21, drawn to a thermoelectric hybrid solar battery system.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature of Groups I and II is:

- a solar battery panel receiving sunlight on a light receiving surface thereof and supplying electricity generated by photoelectric conversion to the outside;
- a heat pipe having a plate-shaped structure, where a surface of the plate-shaped structure on one end portion side is affixed to a back surface of the light receiving surface of the solar battery panel, and
- receiving heat generated at the solar battery panel from said one end portion and conducting to the other end portion.

However, this common technical feature cannot be a special technical feature, as it is taught in the prior art by Nomiya (JP 2003-137199, abstract – English abstract provided). Therefore, there is no special technical feature between the Groups I and II and therefore a lack of unity exists.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
